10 Linux commands executed.
Explanations:

1. `file /etc/passwd` – Displays the type of file `/etc/passwd`.
2. `stat /etc/hostname` – Displays detailed information about `/etc/hostname`, such as size and permissions.
3. `wc /etc/passwd` – Counts the lines, words, and bytes in `/etc/passwd`.
4. `cut -d: -f1 /etc/passwd` – Displays the usernames from `/etc/passwd`.
5. `echo "linux practical" | tr 'a-z' 'A-Z'` – Converts the text to uppercase.
6. `echo "Linux practice" | tee practice.txt` – Displays the text and saves it in `practice.txt`.
7. `diff file1.txt file2.txt` – Shows the differences between two files.
8. `du -sh ~` – Displays the total disk space used by your home directory in a human-readable format.
9. `which bash` – Displays the path of the Bash executable.
10. `id` – Displays your user ID, group ID, and group memberships.
